SUMMARY

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

TECHNICAL SKILLS

Programming and Querying: Python, SQL (Advanced – Joins, Window Functions, CTEs, Subqueries, Aggregations)

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-learn

Data Visualization: Power BI, Tableau, Excel (Advanced), Dashboard Development

Databases: MySQL, PostgreSQL, Data Warehousing

Concepts: EDA, Data Cleaning, ETL, Statistical Analysis, A/B Testing, Data Modeling, KPI Tracking, Data Validation

PROJECTS

Financial Operations Analytics | [Project Link](#)

- Built a revenue forecasting model using ARIMA and Prophet to predict 12-month revenue trends
- Developed churn prediction model using Logistic Regression and Random Forest achieving 75 Percent + accuracy
- Performed customer segmentation using RFM analysis and K-Means clustering
- Applied data preprocessing, feature engineering, and EDA to clean and transform financial transaction data
- Skills: Python, Pandas, Scikit-learn, Prophet, Statsmodels, SQL, PostgreSQL, Power BI, Jupyter Notebook

Retail and Marketing Analytics | [Project Link](#)

- Analyzed 10K+ retail transactions to uncover sales patterns, seasonality, and customer behavior
- Applied K-Means clustering to create four customer segments for targeted marketing strategies
- Calculated Customer Lifetime Value (CLV) to identify high-value customers and improve ROI
- Created KPI framework including retention rate, AOV, and revenue trends for business monitoring
- Skills: Python, Pandas, NumPy, Scikit-learn, SciPy, Matplotlib, Seaborn, Plotly, SQL, PostgreSQL, Power BI

Healthcare Analytics – Hospital Readmission Prediction | [Project Link](#)

- Developed a predictive model to identify patients at risk of 30-day hospital readmission
- Conducted EDA to analyze patient demographics, diagnoses, and treatment trends
- Evaluated models using a confusion matrix, recall-focused metrics, and statistical analysis
- Skills: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, SQL, PostgreSQL, Power BI, Jupyter

WORK EXPERIENCE

IT Consultant (Data and Business Analysis)

June 2024 – May 2026

Bhoomi TechZone Pvt. Ltd.

- Analyzed client requirements and translated them into data-driven solutions using SQL and Excel
- Worked with structured datasets and supported data analysis, reporting, and dashboard development
- Identified customer demand trends and business patterns for service optimization and business intelligence
- Developed reports and performed KPI tracking to support performance monitoring and decision-making
- Presented data-driven insights to stakeholders, improving decision-making speed by Twenty Percent

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Graduated: 2024

Dr. A. P. J. Abdul Kalam Technical University (AKTU)

Lucknow, Uttar Pradesh

CERTIFICATIONS

Data Analytics Certification – SkillSetMaster

(Advanced Excel, Advanced SQL, Python – NumPy, Pandas, Matplotlib, Seaborn, Plotly; Power BI, Tableau, Statistics)

Data Analytics Certification – Physics Wallah

(Excel, SQL, Python for Data Analysis, Data Visualization, Business Intelligence Tools, Statistics, Business Understanding)
